

YOU'RE ON OUR TURF™

POURED IN PLACE SURFACING SYSTEMS

Bondflex

BONDFLEX was formulated to meet the Head Injury Criteria, ASTM-1292-99 for high heights at an economical cost. Bondflex is multi-dimensional. The system utilizes a recycled polyurethane rubber as a loose filled base. A reinforced welded wire is applied to the base material. The Bondflex intermediate and wearing course are mixed on site with the Vitriturf Binder and installed at a minimum thickness of 1.5" and a total minimum thickness of 3.5".

Advantages:

1. Meets CFH of 12' with standard system.
2. Perfect for retrofitting existing loose fill playground surfacings.
3. Extremely affordable.
4. Available in 18 standard colors and unlimited color combinations.
5. Single Source Responsibility.

Why Bondflex?

Extremely Durable

Multicolored

Quick Installation

Economical
