

YOU'RE ON OUR TURF®

POURED IN PLACE SURFACING SYSTEMS

## Multi Surface System

The Multi Surface System is a unique poured in place system designed to be applied over most substrates including grass and hard pan dirt, Multi Surface System is utilized to provide play fields, basketball courts and trails directly over existing sound substrates without the need of installing concrete or compacted stone aggregate.

### Advantages:

1. Reduces the cost per square foot of the total poured in place system.
2. Allows for quicker installation because the Vitriturf Crew provides the sub-base and system.
3. Does not affect the bounce of a basketball and is porous so it can be utilized as soon as the rain passes.

### Four Easy Steps:

Stabilize the Substrate

Install Multi Surface Base

Prime Base Mat

Install Vitriturf Wearing Course
